Notes:

a The AFS included in this measure are non-bank money orders, non-bank check cashing, non-bank remittances, payday loans and pawn shop loans. Households were not asked whether they use rent-to-own agreements or refund anticipation loans in the last 30 days.

b AFS transaction products are non-bank check cashing, non-bank money orders and non-bank remittances.

c AFS credit products are payday loans, pawn shop loans, rent-to-own agreements and refund anticipation loans.

Underbanked households are defined as those households that have a checking and/or a savings account and had used non-bank money orders, non-bank check cashing services, non-bank remittances, payday loans, rent-to-own services, pawn shops, or refund anticipation loans (RALs) in the past 12 months.

The demographic characteristics of a household, such as race, age, education, and employment, are taken to be those of the owner or renter of the home (i.e., "householder"), unless the characteristic is one defined at the household level, such as income or household type.

Figures do not always reconcile to totals because of the rounding.

Refer to 2011 FDIC National Survey of Unbanked and Underbanked Households and FDIC Technical Notes for terms, definitions, and methodological notes. Figures do not always reconcile to totals because of rounding. Differences between groups may or may not be statistically significant.
