Notes:

Households are categorized by their most recent known use of AFS. Households that used AFS in the last year, but did not know whether AFS was used in the last 30 days, are categorized as having used AFS in the last 2-12 months. Households that had ever used AFS, but did not know whether AFS was used in the last year, are categorized as having used AFS, but not in the last 12 months. The unknown category includes only households that did not know whether they had ever used AFS.

(a) Households were not asked whether they used these AFS products in the last 30 days.

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion was rounded to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

NA = Not available because the sample size was too small to make an accurate estimate.

Refer to 2011 FDIC National Survey of Unbanked and Underbanked Households and FDIC Technical Notes for terms, definitions, and methodological notes. Figures do not always reconcile to totals because of rounding. Differences between groups may or may not be statistically significant.

Notes:

(a) Households are categorized by their most recent known use of AFS. Households that used AFS in the last year, but did not know whether AFS was used in the last 30 days, are categorized as having used AFS in the last 2-12 months. Households that had ever used AFS, but did not know whether AFS was used in the last year, are categorized as having used AFS, but not in the last 12 months. The unknown category includes only households that did not know whether they had ever used AFS.

(b) The AFS included in this measure are non-bank money orders, non-bank check cashing, non-bank remittances, payday loans and pawn shop loans. Households were not asked whether they use rent-to-own agreements or refund anticipation loans in the last 30 days

- = For this table cell there were so few sample respondents (in some cases zero) reporting that the estimated universe proportion round to 0.0 percent. It is estimated that the true value is only slightly greater than zero.

NA = Not available because the sample size was too small to make an accurate estimate.

Refer to 2011 FDIC National Survey of Unbanked and Underbanked Households and FDIC Technical Notes for terms, definitions, and methodological notes. Figures do not always reconcile to totals because of rounding. Differences between groups may or may not be statistically significant.
